## Key Issues

## Forest Facts and Accomplishments

Selected Facts	Value	FY 2018 Accomplishments	Value
Population	6,547,629	Landowners Receiving Educational or Technical Assistance	4,350
Acres of Forest Land	3,024,911	Acres Covered by New or Revised Forest Stewardship Plans	24,740
Acres of Nonindustrial Private Forest Land	2,179,000	Acres in Important Forest Resource Areas Covered by New or Revised Stewardship Plans	12,141
Number of NIPF Landowners	293,000	Volunteer Fire Departments Assisted	40
Acres of Federal Land Under State Fire Protection	0	State Fire Communities Assisted	50
Acres of Private Land Under State Fire Protection	3,200,000	Coop Forest Health Acres Protected	46
Number of Rural Fire Departments	220	Forest Legacy Project Acquisitions	401
Cities and Towns	53	Communities Provided Urban Forestry Program Assistance	268
Forest Based Employment	20,647	Population Living in Communities Provided Urban Forestry Program Assistance	5,964,351
Economic Impact of Forestry (by rank)	6	Urban Forestry Volunteer Assistance	29,115
State Forestry Budget (All Sources)	3,750,000		

## Program Highlights

### Forest Health Protection

Continued focus on eradication of Asian longhorned beetle in Worcester County. Gypsy moth defoliation was down statewide, with 159,705 acres mapped in 2018. Oak mortality, likely driven by gypsy moth, occurred on 23,602 acres. Surveys for southern pine beetle found only four beetles in 2018. Biological control efforts for emerald ash borer, hemlock woolly adelgid, and winter moth continue across the state.

### Forest Stewardship

The Massachusetts Forest Stewardship Program reported 224 new/revised stewardship plans for 24,740 acres of which 12,141 acres were in Important Forest Areas per Massachusetts's Strategic Forest Action Plan; and 2,986 landowners took part in educational programs. Massachusetts has an on-going landscape scale restoration projects project "Small Forest Landowner Outreach Initiative for Communities Located in the Urban-Rural Interface of the Quabbin to Cardigan Priority Landscape" designed to empower landowners of small woodlots (10 to 25 acres) to engage in coordinated forest management, combat invasive species, and provide heat to neighbors in need.
